WWW.VETXPO.COM

Hosted by GallantFew, Inc. (27-1779772)

GallantFew's mission is to facilitate a peaceful, successful transition from military service to a civilian life filled with hope and purpose.

WHO

GallantFew does this by connecting young veterans with guides to create encouraging and mentoring relationships based on mutual respect and trust.

GallantFew focuses on functional fitness. Functional means usable in daily life. Fitness means it can be measured and with intentional planning and focus can be improved.

WHAT

VetXpo is a means for establishing personally relevant, foundational beliefs and courses of action that help maintain critical balance.

VetXpo enables Veterans to generate thoughtful solutions in alignment with their core values. It is the integration of the highest ideals of what civilian life can be, what we expect from ourselves as a representative of military service/profession, and how our important civilian purpose filled life can be lived.

VetXpo is designed to be a fast-paced development that includes TED-style presentations. Rather than provide answers to specific questions, VetXpo seeks to cultivate the exploration of issues central to the Veteran transition process, cultural identity, and accountability. It is intended to spark introspection and action among attendees.

WHERE

A black and white photograph of a large, multi-story Marriott hotel building. The building features a prominent central tower with the Marriott logo on its side. The foreground is filled with dense trees and foliage, partially obscuring the base of the building. The sky is clear and light-colored.

- *Marriott Champions Center in Fort Worth, TX*
- *\$129/night group rate*
